TI-M DECLINES EC
INVITATION TO BE
ELECTION OBSERVER

Date: 7th January 2013

Press Statement

TI-M Declines the Election Commission's (EC) invitation as Election Observer

There have been statements made that Transparency International – Malaysia (TI-M) will be an election observer at the forthcoming 13th General Election (GE). We confirm that TI-M was invited but had yet to accept the invitation.

TI-M is encouraged that the Election Commission recognises the importance of the integrity of the election process in inviting various civil society organizations such as TI-M to be accredited as domestic election observers.

TI-M has in the past worked constructively with the EC in proposing reforms to political financing and the election process. The EC has demonstrated its willingness to enter into frank dialogue and discussion with civil society organisations in Peninsula Malaysia, Sabah and Sarawak in the process of appointing domestic election observers. TI-M has participated in several meetings with the EC.

During these meetings, TI-M had urged the EC to ensure all rules imposed on accredited observers, as well as the process of accrediting the observers comply with international standards and norms.

However, TI-M has expressed reservations on some of the Terms of Reference set by the EC on domestic Election Observers. (TI-M has agreed to confidentiality in order to promote free and frank discussions.). TI-M also believes that civil society organizations, such as MAFREL, which have the requisite expertise, experience and credibility with the public, should play prominent roles in the election observation process.

TI-M has on Friday, 4 January 2012, informed the EC that TI-M regrets it is unable to accept the EC's invitation to participate as an Election Observer at the 13th GE.

TRANSPARENCY INTERNATIONAL – MALAYSIA
(MALAYSIAN SOCIETY FOR TRANSPARENCY AND INTEGRITY (ROS: 1649))

*TI-Malaysia promotes good governance, integrity and transparency in Malaysia
through advocacy, education, information and research*

However, TI-M would be willing to continue to engage with the EC to reform various laws related to elections.

TI-M further calls on the EC to ensure that the whole process of election observation adheres to international standards and norms, in order to restore the credibility of the election process in the eyes of the Malaysian public and the international community.

Response to Transparency International–Malaysia’s decision to decline invitation to be GE13 election observer

I am disappointed to read TI-M’s sudden decision to decline the invitation from the Election Commission (EC) for them to be an accredited election observer.

On Thursday 3 January 2013, I was at TI-M’s office in Petaling Jaya discussing how best to coordinate our work on election observation with them. The meeting lasted for almost 5 hours, finishing at around 10.30pm. I was shocked when, at 3pm on Friday, TI-M informed me that they have already told the EC about their withdrawal. We have been talking to each other for many months on this project and TI-M has never given any indication that they were considering to withdraw.

In their formal announcement to withdraw, TI-M stated that they “had urged the EC to ensure all rules imposed on accredited observers, as well as the process of accrediting the observers comply with international standards and norms.”

I would like to clarify that all organisations have made the same request to the EC. The invited groups negotiated the terms for many months between ourselves as well as with the EC, until we reached an understanding on the matter. This is not something TI-M alone had done.

TI-M also stated that they have “expressed reservations on some of the Terms of Reference set by the EC on domestic Election Observers.”

Again, in all the meetings with the EC, all the organisations expressed some reservations. All the groups, including TI-M, negotiated the terms with the EC. In our last meeting with the EC on 13 December 2012, all the organisations including TI-M came to a compromise regarding the terms and conditions. Indeed there are issues that we agreed to disagree with the EC, and the EC also agreed to disagree with us. If TI-M had such strong reservations, why did they not put a strong argument to the EC when we were sitting face to face with them?

I am worried that by withdrawing at this last minute and without discussing the bigger picture with other organisations involved in the observation mission, TI-M is inadvertently and unintentionally helping those who are bent on painting the wrong picture on the election observation mission and the organisations involved in it. I regret this situation.
